ACTIVITIES

As a Full Stack Developer, I design and maintain dynamic web applications using the LAMP stack (Linux, Apache, MySQL, PHP) for optimal performance. I create user-friendly interfaces with HTML, CSS, and JavaScript, while also producing engaging graphics and layouts with CorelDRAW. I collaborate with teams to gather requirements and implement effective solutions, manage MySQL databases to enhance application efficiency, and troubleshoot technical issues to ensure smooth operations.

SUMMARY

Versatile Full Stack Developer with over 5 years of experience in the LAMP stack (Linux, Apache, MySQL, PHP) and a strong background in creating dynamic web applications. Skilled in front-end technologies including HTML, CSS, and JavaScript, complemented by graphic design expertise using CorelDRAW to produce visually engaging layouts. Adept at collaborating with teams to deliver innovative solutions that enhance user experience and functionality.
